

## Gong Cha USA Premium Drink Franchise

I can see up to the minute sales in each of our franchise stores and company-owned stores, which is extremely helpful in tracking trends between each store and top menu items we sell between each state.

Sam Lamba / CEO / Gong Cha USA

## Golden Krust Restaurant Casual Restaurant

I would definitely recommend this team to other businesses.

Karen Murray / Owner / Brooklyn, NY

## Smokehouse Sandwich Co. Casual Restaurant

Excellent cloud based POS system, very easy to work and user friendly. What I like the most is you can setup and update the menu and pricing remotely and only take few simple steps. Also there are ton of online reporting from sales to employees payroll. Overall a great POS system.

Matthew Kho / Owner / Humble, TX

## Newton Family Restaurant Casual Restaurant

This is the best POS system on the market as we speak.

Cengiz Bayram / Owner / Newton, IO

## CLOUD ENTERPRISE POINT OF SALE

# ONE POS SYSTEM FOR ALL YOUR NEEDS

## KEY FEATURES & BENEFITS

### NO SIGNAL NO PROBLEM

Built with an advanced offline feature where the iPads work independently without the need of a server computer or another iPad. It even works without the internet. No WiFi, No Internet, No Problem.

### DASHBOARDS & REPORTS

Know your store by utilizing our Key Performance Indicator Dashboard. Conveniently display your net sales, transactions, and refunds for an accurate "at a glance" view.

### ONLINE ORDERING

Online ordering is more popular than ever in the to-go and delivery sector. Enjoy the ability to control all aspects of your online ordering system.

### CUSTOMER LOYALTY

Easily reward your customers with iPad POS, and watch your repeat business increase. You can create rewards programs straight from your POS system.

### WAIT LIST & RESERVATION

Wait list management and time calculator, text-to-guest when table is ready. Sync wait list with table status automatically. Track phone reservations.

### TABLE LAYOUT MANAGEMENT

Optimize your resources by using our Table Layout feature. After you finish designing your floor plan layout, the system will calculate the following: guest count at particular tables, dining time length and even the average check amount.

### PIZZA BY SLICE

Emphasize the customization of pizza, all the way down to the slice! Customers can order pizza just the way they want it, and the POS manages all the details effortlessly. Add and subtract each individual topping without ever having to delete the order.

### CUSTOMER DISPLAY

Easily reward your customers and watch your repeat business increase. You can create, manage and track rewards programs straight from the POS platform.

### CENTRAL KITCHEN & WAREHOUSE

Track distributions, transfers, and orders to and from central kitchens and warehouses. Perfect for pizza commissaries and growing QSR chains.
